 Cures Grip in Two Days. **on every box 25c.**

EDUCATIONAL DEPARTMENT

EDITED BY MISS MINNIE BOURLAND.

Miss Sallie Brown, the efficient county superintendent, reports a most excellent school at Liberty District. It is taught by Miss Rossie Adams, who is a thoroughly live and progressive teacher. The average attendance is about thirty-one.

Miss Mildred Coffman has recently opened her school at Baugh's District and is doing some most creditable work.

The teachers of the Seventh District will hold their meeting with Prof. Chapman in the splendid new graded school building at Madisonville.

Miss Rosalie Brown, a Hopkins county teacher, will leave the work for the present and further fit herself for the profession by taking a strong course at the State College in Lexington.

Miss Brown has begun her annual visits to the country schools and in spite of many adverse circumstances she finds much to commend.

The Public School at Mortons Gap will open Monday, Aug. 29, with Mr. Norman Hopgood and Miss Ophelia Davis in charge.

Miss Belle Story has deserted the Hopkins county corps of teachers, having left Monday to take charge of the Lisman school in Webster county.

Miss Francis Young, of Powhatan, Virginia, has returned to resume her work at Hecla. She will open her school the second Monday in September, after a week's visit to the St. Louis Exposition.

Latest University Statistics.

The comparative student enrollment in the seventeen largest American universities is: Harvard, 5,468; Columbia, 5,367; Chicago, 4,206; Michigan, 3,764; California, 3,676; Minnesota, 3,505; Cornell, 3,281; Wisconsin, 2,884; Northwestern, 2,875; Yale, 2,804; Pennsylvania, 2,549; Nebraska, 2,289; Syracuse, 2,020; Indiana, 1,648; Missouri, 1,408; Leland Stanford Junior, 1,378; and Princeton, 1,345.

Harvard has 533 instructors, and Columbia, 536, the largest number in the country. Johns Hopkins has one instructor for every four students.—Educational Foundation.

A Vivid Imagination.

The school teachers of today are resorting to various methods of stimulating the student's imagination. The Boston Herald tells of one who required her class to reproduce on paper their impression of a given poem. The theme was the "Old Oaken Bucket."

Nathan's illustration consisted of a large circle, three buckets, and a bunch of dots.

"Nathan," said the teacher, "I can't understand this. What's the circle?"

"That's the well," replied Nathan. "And why have you three buckets?"

"One is the old oaken bucket, one is the iron-bound bucket, and the other is the moss-covered bucket which hung in the well."

"And what are those little dots?"

"Those are the loved spots which my infancy knew."—Youth.

No Know.

A school teacher in Westbrook, Me., says an exchange, asked his pupils if they knew who Nero was.

The only response came from a little boy who said they sang about Nero in church. The teacher, who could recall no religious music devoted to Nero, asked the name of the

hymn.

"Nero, My God, to Thee," was the confident answer.—Youth.

Best Selling Books.

According to lists made by book dealers in fourteen of the largest cities of America the books of the season which have sold best in order of demand are:

1. The Deliverance. Glasgow. \$1.50
2. Sir Mortimer. Johnson. \$1.50
3. Rebecca. Wiggins. \$1.25
4. My Friend Prospero. Harland. \$1.50
5. The Little Shepherd of Kingdom Come. Fox. \$1.50
6. The Yoke. Miller. \$1.50

Intensified.

Strange meanings are to be extracted from words. The most remarkable are sometimes the result of desperation. If a boy "can't think" of his answer, he is likely to manufacture it. A teacher tells, in the Brooklyn Eagle, this story of "drawing out" the power dormant in the pupil's mind.

He was explaining to a farmer lad, who was studying Latin, and had been called on to recite, the fact that a preposition often intensifies the meaning of a verb.

"Take cava, for instance," he said. "It means to hollow out. Now what will a preposition do to it?"

"Intensify it, sir."

"That's right. Now what would excavo mean?"

"To holler out louder."

A Symposium.

(From Life—Adapted.)

A year's subscription to THE BEE will be given to the first school boy or girl in Hopkins county, Kentucky, who will correctly name the participants in the following symposium, by filling out the blanks with single words. We offer you a good start by filling the first three:

"What is the secret of success?" asked the Sphinx.

"Push," said the button.

"Take pains," said the window.

"Be up to date," said the calendar.

"Always keep cool," said the

"Do business on tick," said the

"Never lose your head," said the

"Do a driving business," said the

"Aspire to greater things," said the

"Make light of everything," said the

"Make much of small things," said the

"Never do anything off hand," said the

"Spend much time in reflection," said the

"Do the work you are suited for," said the

"Get a good pull with the ring," said the

"Be sharp in all your dealings," said the

"Find a good thing and stick to it," said the

"Trust to your stars for success," said the

"Strive to make a good impression," said the

"Turn all things to your advantage," said the

"Make the most of your good points," said the

"Be always on the lookout for a snap," said the

"Be ever ready to do a good turn for anyone," said the

"Never take sides, but be round when you're wanted," said the

"Sacrifice yourself, that through you others may succeed," said the

"Keep a good heart, though you be be drawn and quartered for it," said the

Two weeks will be given the competitors, after which the correct answers will be published.

Communications must be addressed to the Educational Editor THE BEE.

MINING NOTES.

NOT YET READY

Combine Sends One Dock Away and Orders Another.

The Pittsburg Coal Combine which has entered the local market is not yet ready to furnish the city trade but will be in a short time says the Paducah Sun.

The combine intends to have an independent line of wagons and its own docks to load from. One dock was sent here from St. Louis, but was not large enough and was rejected. There is another dock owned by the combine which will be sent here shortly, and after a few preliminary matters have been arranged the combine will begin selling coal in the city.

The Oregon Coal Company has filed articles of incorporation with the secretary of state at Frankfort which incorporates a company to build a line of track for the output of their mine. This company has built a coal tippie near Earles, Muhlenberg county, and it is so erected that it will dump coal directly on one of the proposed routes that the company intends to build. They have already had a lot of machinery and material delivered at Central City and men are there now at work. The mine is fifteen miles from Central City and nine miles from Madisonville.

A cablegram from Paris to the Chicago Tribune says:

The international congress of miners, which has just been held in Paris, resembling in this all international congresses of workmen, has resolved that it should henceforth do without employees, whom it regards as being not only oppressors but chiefly as cruel middlemen who keep for themselves all the profits of labor.

Unfortunately it is not at all sure that when the employer has disappeared the workman will see any increase in his share. Experience in France tells a similar tale. Glass works have been intrusted to glass workers, and mines to miners, and the administration of these cases has been disastrous. One must ascend from fact to theory, in place of descending from theory to fact, otherwise one gets no further knowledge of what is possible.

Sturgis, Ky., Aug. 23.—The big strike or lockout at the United States colliery came to an end this morning when nearly two hundred men returned to work, the difficulty having been amicably adjusted by President Chas. Wells, of the United Mine Workers, and Supt. Chas. Bucher, of the coal company.

The Southern Railway is to increase the freight rate on coal from Jellico to Carolina points five cents on the ton. A similar increase will go into effect in the Middlesboro district, but at no other coal shipping point will this advance in freight rates be applied.

Chattanooga, Tenn., Aug. 24.—A strike of all the union miners employed in this district is looked for unless terms for the coming year are agreed upon before Sept. 1st when the present scale expires. This also includes

all the union miners in Kentucky as they are in the same district.

The motion of the striking miners and officials of the miners' unions to dissolve the temporary injunction which Judge Humphrey of the Federal court issued several weeks ago restricting them from picketing the Zeigler Coal Company's property near Duquoin, Ill., or in any manner interfering with the operation of their mines has been overruled by Judge Humphrey.

ANXIOUS TO GET THE FACTS

State Department Cables For Facts Concerning Status of Affairs at Shanghai.

Washington, Aug. 24.—Acting Secretary of State Adee has cabled Minister Conger, at Peking, a request that he report as soon as possible the facts concerning the situation at Shanghai. A similar request has also been addressed to Consul-General Goodnow, at Shanghai, and Consul-General Fowler, at Che Foo.

Although no admission on that point is yet obtainable, it is believed that instructions have either been sent or will be sent to Rear-Admiral Stirling to co-operate with the minister and the consuls in the protection of American interests in the treaty ports.

Fatal Ending of a Quarrel. Olathe, Kas., Aug. 24.—Dr. E. P. Chase, of Shawnee, shot and fatally wounded John Cahill near that place, the result of a former quarrel.

To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box 25c.

Like a Comet
This famous remedy does for the stomach what which it is unable to do for itself, even if but slightly disordered or overburdened.

Kodol
 supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles and membranes of that organ are allowed to rest and heal. It cures indigestion, flatulence, palpitation of the heart, nervous dyspepsia and all stomach troubles by cleansing, purifying and strengthening the glands, membranes of the stomach and digestive organs.

Kodol Dyspepsia Cure
 Your Dealer Can Supply You.
 Bottles only \$1.00. Size holding 2 1/2 times the trial size, which sells for 50c.
 Prepared by E. C. R. WITTE & CO., CHICAGO.

THE STORM THAT STRUCK ST. LOUIS

It Took a Dip Into the North End, Friday Afternoon, and Did Enormous Damage.

THEN JUMPED THE MISSISSIPPI TO VENICE AND MADISON, ILLINOIS.

Three Persons Dead and Many Injured; Hundreds Left Homeless and Hundreds of Thousands of Dollars' Worth of Property Damaged the Results.

St. Louis, Aug. 21.—Three persons are known to have been killed and over a score injured in the terrific winds which swept over a portion of North St. Louis and crossed the river to Venice and Madison, Ill., shortly after three o'clock Friday afternoon. Several hundred persons were rendered homeless.

The area covered by the storm did not exceed a mile square, and outside of that particular section there was practically no disturbance. In fact, people in the business section, only two miles from the scene of the storm, could scarcely be persuaded that such a thing was possible when the first reports began to come in.

Followed by Heavy Rain. This storm was followed, about eight o'clock in the evening, by a terrific electric and rainstorm, covering the entire city. During the 30 minutes the storm raged, no less than five alarms came in from the World's fair grounds, which had escaped the afternoon storm entirely. None of the alarms was of a serious nature. The wind during the evening reached a velocity of 52 miles an hour, while the rainfall approximated two inches.

A Cyclonic Wind. The cyclonic wind which swept down upon North St. Louis in the afternoon tore its way for 15 blocks through houses and sheds, leaving a path filled with debris. Houses and factories between Eleventh street and the river were unroofed and the walls of a hundred residences were blown in. Broadway, from Bremen avenue south to Dock street, was literally piled with debris, tangled telegraph and electric light poles and cables, street signs and loose boards. The small loss of life was remarkable, when the fury of the storm is considered.

The Property Damage.

The damage to the buildings in the devastated area will aggregate at least \$250,000, according to several business men in North St. Louis who went over the path of the storm. The greatest damage was done, perhaps, to the rolling mills of the National Enameling & Stamping Co.'s plant. It was a mass of wreckage. About the only thing standing were four big smokestacks. The damage is estimated at \$50,000.

The damage to the Summers Manufacturing plant at 3443 North Broadway is placed at \$25,000.

The damage to the Buck Stove Co.'s building at Destrehan and Hall streets was about \$25,000. The corners of the building were blown out and holes were punched into the brick wall in the rear. Every pane of glass in the windows on the south side was broken.

The damage to the Mallinckrodt Chemical Co.'s plant at Second and Destrehan streets will reach several thousand dollars.

At the church of Our lady of Good Counsel, Father Tracy estimates the damage at \$3,000 to \$4,000.

The work of the storm will fall heavily upon the electric power and telephone companies.

Many Residences Damaged.

Damages to residences in the path of the cyclone will reach \$100,000. Many of these were partially unroofed, and sheds along the course of the storm were blown down.

DISASTROUS CHICAGO FIRE

Plant of the Nubian Paint & Varnish Co. Destroyed—Loss Estimated at \$75,000.

Chicago, Aug. 22.—Fire, the result of lightning, caused a loss of \$75,000 to the plant of the Nubian Paint & Varnish Co., Fifty-first avenue and Moffat street, Sunday night. Explosions of tanks of oil and varnish endangered the lives of firemen, five of them and a volunteer being overcome by the gas and smoke. The storage room and offices of the company were destroyed, and the remainder of the plant had a narrow escape.

The men injured are:

Capt. Peter Vogt and Fireman Daniel Kelly.

Charles Dentzen.

Daniel Lysaught.

James Moran.

William O'Brien, a volunteer, was overcome by smoke when aiding a fireman.

None of the men will die, but Lysaught is in a serious condition.

BROUGHT VALUABLE CARGO.

Steamer Siberia Brought a Cargo From the Orient Valued at Over a Million and a Quarter.

San Francisco, Aug. 20.—The Pacific Mail steamer Siberia, just arrived from the Orient, brought in a most valuable cargo. A lot of raw silk valued at \$402,000 was listed on her manifest, while in her treasure tank was Japanese gold aggregating \$950,000. The coin comes from Japan for the purchase of supplies for the army.

JAPS HAMMERING RUSSIAN CENTER

One By One the Russian Defenses of Port Arthur Give Way Before the Japanese.

HE ELSHAN, OR CHAIR FORT, TAKEN AFTER SEVERE FIGHTING.

Liao Yang Expected to Fall Shortly—Russians Said to Be Detaining Produce From the Interior—Things Getting in Good Shape Again at New Chang.

London, Aug. 23.—3:35 p. m.—The Evening News publishes a dispatch from Che Foo under to-day's date announcing that the Japanese captured "Chair Fort" of the Port Arthur defenses, yesterday, after a tremendous attack.

London, Aug. 23.—The Evening News dispatch from Che Foo is simply a repetition of the announcement of the capture of Itshan, or Elshan, known as "Chair Fort." It is almost in the center of the chain of forts, of which it forms one, defending Port Arthur, from which it is only about a mile and a half distant. It occupies a commanding position and is possibly only second in importance to the Golden Hill forts.

Tien Tsin, Aug. 23.—Lloyd's agent at New Chang reports as follows: "The Russians are detaining produce from the interior. Liao Yang is expected to fall shortly. New Chang and the land under Japanese jurisdiction are progressing wonderfully. The consuls get every assistance from the administrator."

London, Aug. 23.—The admiralty, contrary to the reports from Shanghai, says the British China squadron, which is at Wei-Hai-Wei, has not received orders to proceed to Shanghai.

PRESSING THE CENTER.

Advices From Chinese Sources Received With Some Reserve.

Che Foo, Aug. 24.—According to advices brought here from Port Arthur by a junk, the Japanese were hotly pressing the Russian center along the railway and the Russian right in the vicinity of Golden Hill. These advices are brought by Chinese who departed from Taiyang Tse, which is one mile from the city, near Golden Hill, between the city and the forts of the Russian right wing. The Chinese declare that the Japanese occupied Taiyang Tse and penetrated along the railway to Gen. Stoessel's residence on August 21.

As this report would indicate that Port Arthur had all but fallen, the Japanese export attached to the local consulate received the information with great reserve. The information is accepted, however, as a confirmation of previous reports that the Russians have been driven from Itzhan, and that the Japanese are very close to the southern forts and eastern defenses.

The local Japanese, under the leadership of their consul, are subscribing money and preparing to celebrate the expected fall of the fortress.

The Chinese further report that a Russian warship was hit by a shell recently and sunk in the harbor. A report was cabled several days ago that a gunboat of the Otavani type had been sunk. This is probably the vessel referred to.

THE CRUISER DIANA.

Belief Expressed That She Will Try to Reach European Waters.

Paris, Aug. 24.—The foreign office here has not been informed of the departure from Saigon, capital of French Indo-China, of the Russian cruiser Diana, which sought refuge there August 20, following the naval battle of August 10 off Port Arthur. It is considered probable that when the Diana leaves Saigon she will sail for Europe, as no Japanese warships are reported to have been sighted south of Shanghai.

THE CREW OF THE NOVIK.

They Are Thought to Have Landed at Korsakovsk, Sakhalin.

Tokio, Aug. 24.—The Japanese believe that the crew of the Russian cruiser Novik were landed at Korsakovsk, island of Sakhalin, when the warship had been beached after the encounter with the Japanese cruisers Chitose and Tsubaki, on August 20. The number of the survivors is not known.

THE MOROS OF MINDANAO

Datto Ali's Forces Adopt Guerilla Tactics and Gen. Wood Organizes Force to Combat Them.

Manila, Aug. 24.—The forces under Datto Ali, on the island of Mindanao, have adopted guerilla tactics in fighting the American soldiers. To counteract this departure, Maj. Gen. Leonard Wood has organized four crack fighting companies of 100 men each, composed of infantry and cavalry, which are to operate independently, and conduct a vigorous campaign for the capture or destruction of the enemy.

Foley's Honey and Tar
 heals lungs and stops the cough.
